Subject: RUSH request sequence search 10/067,125

Hi Jeff,

If you approve, could you forward the rush sequence search request below to the STIC...the reason for the rush is that I'm trying to fit this one in to improve my partial sig denominator.

Thanks,
Doug Schultz

STIC searchers,

I need a length limited nucleotide sequence search on SEQ ID NO:2 (2262 nucleotides long) from the case in the subject line, which returns hits no greater than 30 nucleotides long. Please include the 50 best hits from each database, and there is no need to search the interference databases at this time.

Thanks,
